Going with the Flow

This classic Estelle kitchen faucet is from Herbeau, a French company dating back to 1857. Based on an authentic 19th-century design and featuring a swivel spout and single-lever handle for easy flow, it marries the best of contemporary convenience with traditional good looks. Shown wall-mounted in polished nickel with a wooden handle (\$1,769), it is also offered in a deck version and other finishes, including brushed or satin nickel, and polished or weathered brass, with an additional white ceramic handle option; prices range from \$1,554 to \$2,030, depending upon finish/handle choice, at Consolidated Plumbing Supply in Mount Vernon; (914) 688-3124. —Laurie Yamell

Sliding Scale

Imagine a mashup of Jensens' technology and Mad Men-ish sleek design. With the touch of a button, this remote-controlled, motorized kitchen countertop slides open to reveal a cooktop and downdraft while extending into a free-hanging bar top. Custom-made by Bracko Kitchens + Baths in LA—the firm recently partnered with Sur La Table to provide custom cabinetry in its professional teaching kitchens nationwide—the Side H. Slide retails for \$20,000 installed and \$23,000 without installation (neither price includes the cost of any appliances); at brackokitchens.com. —LY
